

Content coordination, annotation and ingestion to Europeana

activity 2

PHOTOCONSORTIUM

Valentina Bachi

Co-financed by the Connecting Europe
Facility of the European Union

Objectives

- To select 10,000+ Chinese Cultural Heritage objects to be published in Europeana
 - >> Content selection plan
- To identify scenarios for metadata and to collect crowdsourced annotations on 2,000+ existing records, already published in Europeana
 - >> Annotation pilot and crowdsourcing campaign
- To enable the publication in Europeana of the new objects, so that they are online in the portal
 - >> planning ingestion with content providers and Europeana

Dependencies and connections

Act. 3

Digitizes new content

Curates the metadata

Act. 4

Monitors content quality

Enriches existing content

Act. 5

Outreach to audiences

Exhibitions and editorials

CONSORTIUM

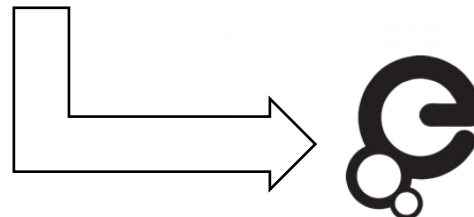

Act. 2

Task 2.1 Content selection

Task 2.2 Annotation pilot

Task 2.3 Ingestion to Europeana

Co-financed by the Connecting Europe
Facility of the European Union

T2.1 Content selection

Challenge: 10,000 items about Chinese heritage in Europe

Consortium partners: KIK-IRPA and United Archives

Reaching out to other CHIs with relevant content:

Benaki Museum, Slovene Ethnographic Museum,
Museovirasto, Kadoc, Leiden University Libraries,
Wereldculturen Museum (...)

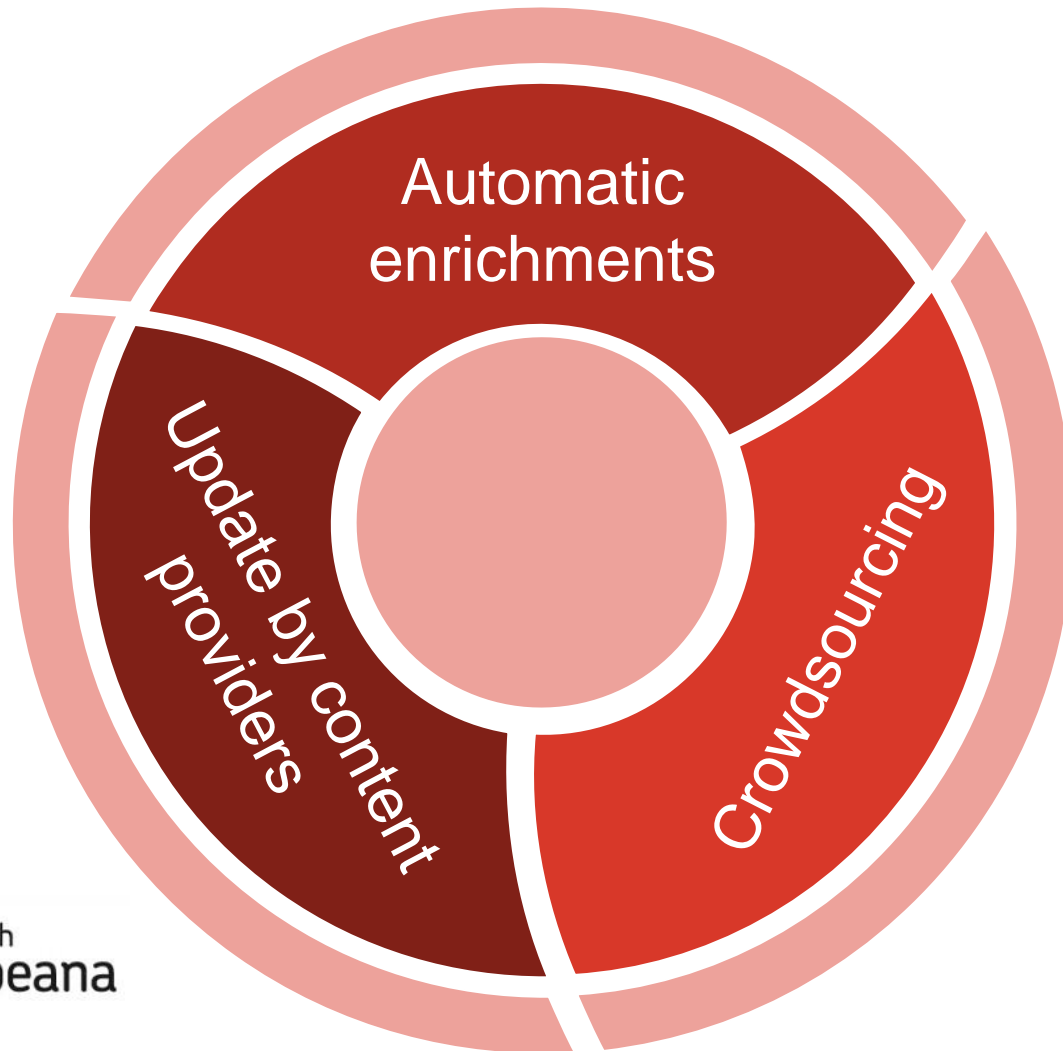

Content selection: status to-date

- Identification of relevant content, themes and stories to depict connections between China and Europe across centuries:
 - Heritage photographs
 - Books, papers
 - Museum artifacts and miscellanea

T2.2 Annotation pilot

Automatic enrichments and crowdsourced annotations will be ingested to Europeana via the Annotation API.

Partners who update their records will ingest them via the normal ingestion routes.

Annotation pilot: status to-date

- MS5 Annotation scenario (October 2020), an extract of which is published on the project's website
- Crowdsourcing campaign ongoing:
 - «Scenes and people of China»: 1,487 records included, with nearly 19,000 tags collected from the community
 - Next steps: validation of tags and delivery to Europeana; launch of the second phase with theme «Chinese artifacts»

T2.3 Ingestion to Europeana

**MINT aggregation tool
or
National aggregators**

dcterms:isPartOf: PAGODE - Europeana China

Ingestion: status to-date

- Test mappings performed by KIK-IRPA and United Archives
- Two meetings organized with Europeana Team for problem solving and planning
- Short questionnaire shared to content providers collecting information about digitization, mapping and ingestion schedule

Thanks for your attention
